Date: _____

(Signature of Student)

S. No.	Research Area	Name of Faculty Member (Optional)
1		
2		
3		
4		
5		
6		
7		

Guidelines for thesis supervisor allocation

1. The students must talk to each faculty member in the specialization and give his/her preference for research areas/thesis topics on the prescribed form.
2. Providing the name of faculty members on the form is optional.
3. There should not be any pre-selection among students and faculty members.
4. DPGC strongly recommends students to indicate at least two distinct areas or topics of research in their respective specialization.
5. The allocation of thesis supervisor will be done by DPGC as per department policies.
