

**Technical Infrastructure Requirements for Students  
for Remote Learning in 2021-22-I**

1. Lectures/Tutorials/Labs/Discussions Hours for the 2021-22-I Semester will be conducted remotely in the online mode.
  2. Most of the instructors will be using the online course delivery platform [HelloIITK](#). Students have to use their IITK Email-ID/Password to login to the platform.
  3. A Broadband or a 4G connection is required for attending live lectures/discussions, and for streaming lecture videos.
  4. It would be better to have a Laptop/Tablet than a mobile phone. Webcam would also be required.
  5. Download and Install the required apps for attending lectures and accessing lecture materials as recommended by the instructor. Adobe Scan or similar Apps can help in scanning documents using mobile phones.
  6. Install SSL-VPN (IIT Kanpur) for remote access to IITK intranet. [See here](#).
  7. Get access to Office 365, licensed by IIT Kanpur. [See here](#).
  8. Install the videoconferencing app for live interactive sessions that your instructor recommends. Most of the instructors may be using Zoom. Create a Login in Zoom using IIT Kanpur E-mail ID.
  9. Have sufficient storage in your device for downloading lecture video/audio contents.
