### **GUIDELINES FOR THE MANAGEMENT OF HALLS**

(Accepted by the senate in 2<sup>nd</sup> meeting 1986-1987)

December 26, 1986

#### INTRODUCTION

IIT Kanpur being a residential institute, requires that all registered students be residents. This commits the institute to maintaining an adequate number of halls, and operating them in a manner reflecting the objectives and values of its educational program.

The responsibility for the administration of the halls is vested, by the Director, in faculty members designated as wardens. Such an assignment, which may be given to any faculty member, is considered a recognized duty expected of the faculty.

The senate, upholding the principle of required residence, lays down the framework, which guides the functioning of halls and the conduct of the residents. This academic body is thus concerned with the proper operation of the residential facilities. A representative of the wardens is an ex-officio member of the senate.

Residents are required to co-operate with the warden(s) in the running of the halls. They must respect his/her authority in the execution of operational details – room allocation, fixing of schedules for payments, assessment of loss or damage to property, assignment of duties to hall staff etc. They must abide by the norms of conduct and discipline applicable in the institute and follow any regulations specifically laid down regarding conduct in the hall. For infractions of discipline, the warden is the immediate authority concerned. His responsibility in all such matters is to the Director, not to the civil authorities outside the institute.

Failure to comply with the requirements and procedures applicable to residents will lead to disciplinary action, which may include a review of individual's status as a student. The senate approves of the application of academic sanction – withholding of grades, withdrawal of permission to appear in examination, cancellation of registration etc. in the event of breach of hall regulations.

Wardens are expected to ensure the efficient administration of the halls and also with promoting the educational development of the student residents. The students should be encouraged to participate in the administration of the hall, to the maximum extent feasible, without hampering the warden's freedom to take necessary day-to-day executive decisions. Committee(s) adequately representing all sections of the resident body should be constituted, to advise and assist the wardens in all matters. Power in various spheres should be delegated to these committees, as found appropriate. The responsibility for ensuring that all such committees function in the best interests of the residents as a whole, and of the institute, rest with the warden. Fostering a healthy degree of student involvement and participation is as much part of the warden's task as is the efficient running of the mess and other facilities.

The above framework of objectives and directives shall guide the interpretation and implementation of the following guidelines and procedures of the halls of residence.

1. IIT Kanpur is a residential institute and all registered students, hereinafter referred to as 'residents', shall reside in the institute halls of residence. All residents shall reside in the halls to which they are assigned.
