STRUCTURAL ENGINEERING LABORATORY

PO. IIT KANPUR-208016 (UP), INDIA

03 June 2015

Enquiry no. CE/STR/2015-16/Jun/03

Sealed quotations are invited for the supply and installation of mechanical mortar mixer for our laboratory along with all relevant accessories. The main feature of the proposed mechanical mortar mixer is to facilitate intense mixing of ingredients to produce ultra-high performance concrete of very low water-to-cement ratio (between 0.10 and 0.25). Other desired technical specifications are as follows:

- Bowl or drum capacity: ~15-30 litres
- Planetary mixing action and gear drive facility
- Atleast three different speed settings (between 100 and 500 RPM)
- Drum material: Stainless steel or steel
- Ingredients to be used in mixer: cement, silica fume, quartz powder, sand, water and other chemical admixtures in appropriate proportions
- Operational laboratory temperature ranges: 10 to 50 °C
- Ability to perform dry and wet mixing of ingredients in a closed- or merely- closed drum condition to prevent the evolution of dust and smoke outside

Kindly send your offer (Original, Signed with the name of signing authority) in a sealed envelope, for the above items mentioning the following:

1. Cost of the item including installation charges with technical specifications in detail
2. Freight, packing etc. charges
3. Warranty period; Delivery time
4. Educational discount considering usage for teaching and research
5. Payment terms
6. Any other relevant details

An early reply latest by 15 June 2015 will be highly appreciated. For any further information/clarifications in this regard, please write back to us at sud@iitk.ac.in.

Thanking you...

Sincerely

Sudhir Misra
