Enquiry No. IITK/EE/SG/2017-18/05
Enquiry Date: 01/01/2018
Closing Date: 22/01/2018

Please send us quotations for the following item.

Latest version of Lumerical's "FDTD solutions" simulation software (It is a high performance Finite Difference Time Domain-method Maxwell solver for the design, analysis and optimization of nanophotonic devices, processes and materials). One node-locked user license for one year is required. Since we are an academic institution, your offer must **consider a generous amount of institutional discount**. Also, the vendor must be able to provide online support throughout the licence period. Please send your best offer on or before 22 Jan 2017 to the address given below.

Mail the quotation to:
Dr. Shilpi Gupta
Assistant Professor
Department of Electrical Engineering
Indian Institute of Technology, Kanpur
